Summary

Dynamic Full-Stack Software Engineer with 3 years of experience building responsive, user-centric web applications. Proficient in using cutting-edge technologies such as ReactJS, Node.js, and AI-powered tools. Skilled in collaborating across teams in Agile environments to deliver high-impact projects on time. A self-taught programmer who started her journey in 2020, constantly expanding her knowledge through hands-on experience and actively seeking opportunities to contribute to progressive companies, especially in the fields of AI and software innovation.

Skills

Front-End: HTML, CSS, JavaScript, Styled Components, React, Redux, Axios

Back-End: Node.js, Express, Python, Flask, SQL

Tools: Git, Visual Studio Code, React Testing Library, Agile, Scrum

Specialized Knowledge: AI, REST APIs, Firebase

Professional Experience

Freelance Web Developer | 2021 - Present

Completed over 30 web applications for various clients, ranging from small businesses to larger enterprises. Specialized in creating custom solutions that align with client's goals and enhance user experiences. Known for delivering projects on time and exceeding client expectations.

Springboard, Software Engineering Mentor | September 2023 - Present

Mentored students in mastering HTML, CSS, JavaScript, React, Python, and Git/Terminal/GitHub. Focused on stimulating cognitive activity and developing research skills, guiding students to become proficient software engineers. Communicated with students to assess their academic needs and goals, adjusting lessons and grades accordingly. Provided detailed feedback on assignments, addressing problem areas until students achieved a 90% retention rate. Engaged students through individual and small group discussions to cater to diverse learning styles. Compiled progress reports and feedback for administration, making necessary adjustments to students' learning plans. Held office hours for 2 hours per week, offering individualized help, which led to a 13% increase in student retention.

Cheesecake Factory, Jr.Front-End Developer | August 2020 – August 2023

Designed, developed, and maintained the official Cheesecake Factory website. Enhanced the functional and visual aspects using HTML, CSS, JavaScript, and React. Improved page load speed by 20%, optimized performance, and ensured robust data protection through collaborative teamwork and meticulous code documentation.

Skills obtained: Web Development, JavaScript, DOM Manipulation, Event-Driven Programming, Git/Terminal/GitHub, Modern JavaScript (ES6), Testing Methodologies, AJAX, jQuery, ReactJS, Redux, Flask, Node, Express, and Algorithms.
